Mr. Amos,

There isn't a work plan for this release, we are conducting remediation at risk.

Thank You,

Becky Haskell

Becky,

Do you have a workplan for the Dodd Federal Unit #980? Please get me a copy and I'll get it right out. Thanks

On Thu, Jun 20, 2019 at 10:26 AM Venegas, Victoria, EMNRD <[Victoria.Venegas@state.nm.us](mailto:Victoria.Venegas@state.nm.us)> wrote:

Ms. Haskell,

OCD approves your requested extension to September 21, 2019 for the above referenced release event.

Thank you,

Victoria Venegas

OCD approval does not relieve the operator of liability should their operations fail to adequately investigate and remediate contamination that may pose a threat to groundwater, surface water, human health or the environment. In addition, OCD approval does not relieve the operator of responsibility for compliance with any other federal, state, or local laws and/or regulations.

Ms. Venegas/Mr. Amos,

Under the new spill rule a closure report is due for this release on 6/21/19. COG is currently conducting remediation at risk for this release and is requesting a three month extension until September 21, 2019 to finish remediation activities and prepare a closure report.

Thank You,

Mr. Bratcher/Ms. Weaver,

Please find the attached C-141 for your consideration. Also, attached is the calculation sheet to determine the estimated release volume. The liquid lost estimate is based on the spill dimensions, estimated depth of fluid (wet soil depth) and type of formation. The spreadsheet will calculate the volume lost in the ground and does not include the

recovered amount in the calculation. The calculated volume in the ground and the volume recovered were added together and reported on the C-141. If you have any questions or concerns please do not hesitate to contact me.

Thank you,

*DeAnn Grant*
