Safety & Environmental Solutions, Inc.

April 7, 2020

New Mexico Oil Conservation Division

1220 South St. Francis Drive

Santa Fe, NM 87505

RE: NRM2006237844

To Whom It May Concern:

Safety & Environmental Solutions, Inc. respectfully writes this letter to you on behalf of Frontier Field Services and Durango Midstream. Due to the recent economic downturn, including the steady drop of oil prices, Frontier Field Services wishes to ask for a 90-day extension on the delineation and/or remediation of the Madurai Pipeline leak that occurred on 12/30/2019 in Lea County, NM. An initial C-141 for the release was submitted earlier in the year and NMOCD issued incident number NRM2006237844.

We appreciate your attention in this matter. Correspondence regarding extension approval would be greatly appreciated and can be directed to SESI personnel at office2@sesi-nm.com and to Frontier Field Services/Durango Midstream personnel at heverhart@durangomidstream.com.

Sincerely,

Katherine Purvis, SESI Environmental Compliance

Harley Everhart, Durango Midstream EHS Analyst
