Brittany,

We have received your Workplan/Remediation Proposal for **Incident #NAB1922035506 Big Papi Fed Com #2**, thank you. This Workplan/Remediation proposal is approved with the following conditions:

- Monitor the draw area and collect samples quarterly for remainder of the calendar year.
- Excavate sidewall sample point SSW-1 as far permissible without effecting the integrity of the draw or the immediate access to the draw. If this has been accomplished, please outline the work completed in the closure report.
- If a catchment/sump system cannot be set up at the bottom of the draw, pull samples near this area and include analytical results in closure report.
- Please communicate results to OCD at year end and let us know if you have any questions.

Thank you,

OCD approval does not relieve the operator of liability should their operations fail to adequately investigate and remediate contamination that may pose a threat to groundwater, surface water, human health or the environment. In addition, OCD approval does not relieve the operator of responsibility for compliance with any other federal, state, or local laws and/or regulations.
