### **NRM2001534588 SLY HAWK STATE #001 @ 30-015-33664**

Mr. Tavarez,

The OCD has denied the submitted Closure Plan/Deferral C-141 for incident # NRM2001534588 SLY HAWK STATE #001 @ 30-015-33664 for the following reasons:

- The release is overlying an area considered to have high potential for karst occurrence and the depth to groundwater is approximately 25 feet. The OCD requests more remediation efforts on this site.

The Denied C-141 can be found in the online image file. Please review and make the required correction prior to resubmitting through the fee portal.

Thank you,

Victoria Venegas

OCD approval does not relieve the operator of liability should their operations fail to adequately investigate and remediate contamination that may pose a threat to groundwater, surface water, human health or the environment. In addition, OCD approval does not relieve the operator of responsibility for compliance with any other federal, state, or local laws and/or regulations.
