Subject: [EXT] RE: WPX Energy - Swearingen #1 SWD (2RP-5628) request for extension.

All,

WPX is requesting an extension of the current deadline of April 20, 2020 for completing a remediation work plan or closure report required in 19.15.29.12.B.(1) NMAC at the Swearingen #1 SWD (2RP-5628). The release was discovered August 23, 2019. Delineation and depth to water investigation activities have been completed; however, additional time is being requested to compile data and select an appropriate remediation approach. WPX requests an extension of the current deadline until July 19, 2020.

Thank you,

Chris McKisson

Subject: [EXT] RE: WPX Energy - Swearingen #1 SWD (2RP-5628) request for extension.

All,

WPX is requesting an extension of the current deadline of January 21, 2020 for completing a remediation work plan or closure report required in 19.15.29.12.B.(1) NMAC at the Swearingen #1 SWD (2RP-5628). The release was discovered August 23, 2019 and initial site assessment activities have been ongoing August 27, 2019. Delineation activities were conducted using hand auger and potholing; however, additional time is being requested to research a potential undocumented pit in the northwest area of the Site. WPX requests an extension of the current deadline until April 20, 2020.

RE: WPX Energy - Swearingen #1 SWD (2RP-5628) request for extension.

Mr. Raley,

OCD approves your requested extension to January 21, 2020 for RE: WPX Energy - Swearingen #1 SWD (**2RP-5628**).

Thank you,

Victoria Venegas

EMNRD

OCD-District II

Artesia NM

Victoria.Venegas@state.nm.us

OCD approval does not relieve the operator of liability should their operations fail to adequately investigate and remediate contamination that may pose a threat to groundwater, surface water, human health or the environment. In addition, OCD approval does not relieve the operator of responsibility for compliance with any other federal, state, or local laws and/or regulations.

Subject: [EXT] WPX Energy - Swearingen #1 SWD (2RP-5628) request for extension.

Mr. Bratcher,

WPX is requesting an extension of the current deadline of November 21, 2019 for completing a remediation work plan or closure report required in 19.15.29.12.B.(1) NMAC at the Swearingen #1 SWD (2RP-5628). The release was discovered August 23, 2019 and initial site assessment was conducted on August 27, 2019. Cleanup activities and initial delineation were conducted using hand auger and basic earth moving equipment. However, specialized drilling equipment will be required for full delineation, scheduling of this equipment has taken longer than expected. Due to the need for extra time to schedule specialized equipment required for full delineation, WPX is requesting an extension of the current deadline until January 21, 2020.

Please let me know if any additional information is needed.
