Subject: Alternative Sampling Plan Approval - ConocoPhillips - Baish A Battery (Incident #NJEG1922759656) (1RP-5641)
Attachments: Alternative Sampling Plan Approval - ConocoPhillips - Baish A Battery.pdf

Christian,

We have received your variance request for **Incident #NJEG1922759656 Baish A Battery**, thank you.

- Your request to performing a grab sample plan of the remediation area, where each composite sample is not representative of more than 500 ft² is approved.
- **Please follow all other conditions set forth in the previously Approved Remediation Plan.**
- All off pad areas must contain a minimum of 4 feet non-waste containing uncontaminated, earthen material with chloride concentrations less than 600 mg/kg and TPH less than 100 mg/kg. In the pasture area, 4 feet below the ground surface, soil contamination limits revert back to Table 1 "Closure Criteria for Soils Impacted by a Release" included in the spill rule <http://164.64.110.134/parts/title19/19.015.0029.html>
- All other closure reporting need to follow requirements set forth in 19.15.29.12 NMAC
- Restoration, reclamation and re-vegetation need to follow requirements set forth in 19.15.29.13 NMAC

Please let me know if you have any further questions.

Regards,

Robert J Hamlet
