Subject: Deferral Denied - Apache - WS Marshall B-011 - (Incident #NDHR1912732011) (1RP-5456)
Attachments: Deferral Denied - Apache - WS Marshall B-011.pdf

Larry,

We have received your deferral request for **Incident #NDHR1912732011 WS Marshall B-011**, thank you. This deferral request is denied.

- A deferral cannot be granted if the depth to groundwater is less than 50 feet. Please remove contaminated soil with shovels and a hydrovac.
- Please sample the pasture area that was misted with overspray. Include this area on your site map with sample points clearly marked.
- If you feel the depth to groundwater is >50', a shallow borehole can be drilled to 51' allowing for verification of the depth. If water is not visible after reaching bottom-hole and waiting 72 hours, sample points would be allowed for deferral. We would just need a copy of the driller's log.

Please let me know if you have any further questions.

Regards,

Robert J Hamlet
