RE: Incident #NRM2003460102

Lynda,

Your request for an extension to September 25th, 2020 is approved. WPX is asking for an extension on the incident # NRM2003460102 until September 25, 2020 to provide the NMOCD with a remediation workplan or closure report required in 19.15.29.12.B.(1) NMAC. A total of 160 cubic yards has been excavated from this location with the work scheduled to remove another 300 cubic yards of soil to comply with remediation criteria. Further delineation sampling was completed on April 10, 2020 to provide internal guidance to move forward with the Site remediation.

Thank you,

Robert J Hamlet

OCD approval does not relieve the operator of liability should their operations fail to adequately investigate and remediate contamination that may pose a threat to groundwater, surface water, human health or the environment. In addition, OCD approval does not relieve the operator of responsibility for compliance with any other federal, state, or local laws and/or regulations.

Subject: [EXT] Extension Request: RDU 15, Incident# NRM2003460102

All,

WPX is requesting an extension of the current deadline of March 25, 2020, for completing a remediation work plan or closure report required in 19.15.29.12.B.(1) NMAC at the RDU 15 (Incident ID NRM2003460102). The release was discovered December 26, 2019. Delineation and initial remediation activities were conducted between December 27, 2019, and January 28, 2020. Additional time is being requested to coordinate earth moving equipment for additional remedial activities and soil sampling. WPX requests an extension of the current deadline until June 23, 2020.

Regards,

Chris McKisson
