### NRM2010853797 HACKBERRY 34 CTB @ A-34-19S-31E ON OE

Mr. Hernandez,  
Your request for an extension to September 29, 2020 is approved.  
Thank you,

Victoria Venegas  
State of New Mexico  
Energy, Minerals, and Natural Resources  
Oil Conservation Division  
811 S. First St., Artesia NM 88210  
(575) 748-1283

OCD approval does not relieve the operator of liability should their operations fail to adequately investigate and remediate contamination that may pose a threat to groundwater, surface water, human health or the environment. In addition, OCD approval does not relieve the operator of responsibility for compliance with any other federal, state, or local laws and/or regulations.

**Subject:** [EXT] XTO Extension Request- Hackberry 34 CTB (NRM2010853797)

All,

XTO is requesting an extension to the current deadline for submitting a remediation work plan or closure report required in 19.15.29.12.B.(1) NMAC at Hackberry 34 CTB (NRM2010853797). The release was discovered on April 2, 2020 and delineation activities have been completed. Remedial activities were initiated but were temporarily suspended to review and address remediation efforts via excavation in an area of significant above- and below-ground utilities. In order to complete the remediation work safely and submit a remediation work plan or closure report, XTO requests a 90-day extension of this deadline until September 29, 2020.

Thank you,

A proud member  
of WSP

Joseph S. Hernandez  
Project Geologist
