### NRM1935430604 HAT MESA 32 STATE #2 @ 30-025-34819

Mr. Kennedy,  
Your request for an extension to October 22, 2020 is approved.  
Thank you,

OCD approval does not relieve the operator of liability should their operations fail to adequately investigate and remediate contamination that may pose a threat to groundwater, surface water, human health or the environment. In addition, OCD approval does not relieve the operator of responsibility for compliance with any other federal, state, or local laws and/or regulations.

All,

Please see updated request below. I mistakenly requested 60 days when 90 days will likely be warranted. My apologies.

XTO is requesting an extension to the current deadline for submitting a remediation work plan or closure report required in 19.15.29.12.B.(1) NMAC at the Hat Mesa 32 State #2 (Incident Number: NRM1935430604). The release was discovered October 21, 2019 and initial site assessment was conducted. The release occurred in pasture and ROE approval was received on June 25, 2020. Delineation and excavation activities are currently scheduled for July 15<sup>th</sup>, 2020. In order to complete the remediation work and submit a remediation work plan or closure report XTO requests a 90-day extension of this deadline until October 22, 2020.

Thanks so much,  
Korey
