Subject: Deferral Approved - Grizzly Energy - Elliott B Fed 6 & 8 Battery - (Incident #NOY1831236288) (1RP-5262)
Attachments: Deferral Approved - Grizzly Energy - Elliott B Fed 6 & 8 Battery.pdf

Carmen,

Grizzly Energy's deferral requests to complete final remediation during any future major construction/alteration or final plugging and abandonment, whichever occurs first. Hungry Horse and Grizzly Energy do not believe deferment will result in imminent risk to human health, the environment, or groundwater. The areas requested for deferral are identified on the site map as "SP2", "SP9", "SP10", "Comp 1", and "Comp 2". The areas have been delineated and documented in the report. At this time, OCD approves this request. The Deferral Request and C-141 will be accepted for record and marked accordingly. The release will remain open in OCD database files and reflect an open environmental issue.

Please let me know if you have any further questions.

Regards,

OCD approval does not relieve the operator of liability should their operations fail to adequately investigate and remediate contamination that may pose a threat to groundwater, surface water, human health or the environment. In addition, OCD approval does not relieve the operator of responsibility for compliance with any other federal, state, or local laws and/or regulations.
