### NMAP1826970471 EP USA #005 @ 30-015-25020 2RP-4984

Mr. Raley,

The OCD has denied the submitted Closure Report C-141 for incident # NMAP1826970471 EP USA #005 @ 30-015-25020 2RP-4984 for the following reasons:

- The release occurred in a High Karst area, which is considered an unstable area and is subject to the most stringent levels listed in Table 1. All five-point confirmation samples -bottom samples and sidewall samples- must meet the closure criteria for this site. *i.e.*, 600 mg/kg for Chloride, 100 mg/kg TPH, BTEX 50 mg/kg and Benzene 10 mg/kg.

OCD approval does not relieve the operator of liability should their operations fail to adequately investigate and remediate contamination that may pose a threat to groundwater, surface water, human health or the environment. In addition, OCD approval does not relieve the operator of responsibility for compliance with any other federal, state, or local laws and/or regulations.
