Mr. Hamlet,

I have received your email. I had received a little feedback from Victoria last week which prompted me to redo all of the C-141's, switching them from FDS (No OGRID), back to Devon. I am working with Amanda Davis on this and expect Devon will be returning signed copies in the coming days, if you wanted to hold off on processing any more of the C-141s. With that being said, the content of the reports will not change, just the signatory on the C-141s. Thank you for everything Mr. Hamlet.

Respectfully,

Joel W Lowry  
Lowry Environmental & Associates

**Joel,**

We have received your closure report and final C-141 for **2RP-4811 Lusitano 27 34 Fed Com 336H (South Frac Pond)**, thank you. This closure is approved.

Please let me know if you have any further questions.

Regards,

OCD approval does not relieve the operator of liability should their operations fail to adequately investigate and remediate contamination that may pose a threat to groundwater, surface water, human health or the environment. In addition, OCD approval does not relieve the operator of responsibility for compliance with any other federal, state, or local laws and/or regulations.

**Subject:** [EXT] 2RP-4811 - Lusitano 27 34 Federal Com 336H (South Frac Pond) - Site Assessment and Closure Report

Please find attached the *Site Assessment and Closure Report* along with the applicable pages from the Form C-141 that has been prepared for the Release Site known as the Thistle Unit 111H (1RP-5161). The Release Site is located in Unit Letter "D", Sec. 12, Township 25 South, Range 31 East, on land administered by the Bureau of Land Management. The release was originally reported by Devon Energy, as it was on one of their locations. With your permission, we ask that the original C-141 be replaced with the attached C-141, which is reflective of the responsible party.

If you have any questions or need any additional information, please feel free to contact me by phone or email. Thanks.

Respectfully,

**Joel Lowry**
