RE: Incident #NRM1927331412

Brittany,

Your request for an extension to September 7th, 2020 is approved. This will be the 4th and **Final Extension** for this release.

Thank you,

Robert J Hamlet

OCD approval does not relieve the operator of liability should their operations fail to adequately investigate and remediate contamination that may pose a threat to groundwater, surface water, human health or the environment. In addition, OCD approval does not relieve the operator of responsibility for compliance with any other federal, state, or local laws and/or regulations.

To Whom It May Concern,

Under the new spill rule a Work Plan or Closure Report is due for the above release on August 7, 2020.

The project delay has been on waiting for the State Land Office to approve the Right of Entry Permit to access site. The permit was approved and EOG (surface lease operator) was notified to also approved access to the site. COG has performed the assessment and is currently preparing a work plan for submittal and approval. COG is requesting a one-month extension until September 7, 2020 in order to finalize and submit the Work Plan.

Please let me know if you have any questions or concerns.

Thank you,

Brittany N. Esparza
