**Subject:** [EXT] Liner Inspections

To Whom it may concern,

Chevron had two spills recently in a lined containment. The fluids were picked via vac truck and the liners are still intact. We are planning to do inspections of the liners on Friday 8-14-2020. We have not filed the initial C-141s yet but plan to do that after the liner inspections. Below are the sites, please let me know if you need any other information from me..

McCloy Ranch – spill date: 8-1-2020 – GPS coordinates: 32.2394; -103.6478

Salado Draw 13 SWD – spill date: 8-10-2020 – GPS coordinates: N 32.02.19.22, W-103.38.26.24

Thank you,

Amy Barnhill
