Jennifer,

OCD has a wide range of operators scheduling release inspections and sampling events daily. It is unreasonable for Concho to expect the OCD to be on standby between the hours of 7AM-4PM. Please provide the OCD an estimated time in which Concho plans to visit the site to perform the inspection so OCD can schedule inspections accordingly.

Cory,

Normal business hours in the field are 7:00am -4:00pm. Given the current shortage of personnel, contractors, and weather issues this week, a time range is the best we can do.

If OCD would like to witness any inspection, I would hope that you would give us the courtesy of a call prior to any attempt to visit the facility and we would of course accommodate the inspector.

Ike,

What are normal business hours? OCD cannot attempt to schedule and inspection if you don't give us an estimated time when you expect your personnel to be onsite.
