OCD approval does not relieve the operator of liability should their operations fail to adequately investigate and remediate contamination that may pose a threat to groundwater, surface water, human health or the environment. In addition, OCD approval does not relieve the operator of responsibility for compliance with any other federal, state, or local laws and/or regulations.

To whom it may concern,

This workplan was originally sent on November 23, 2018. We never received an approval so we have started remediation anyway. If possible, could we get a confirmation of receipt?
