RE: Incident #**NRM1932357560**

Larry,

Your request for an extension to **February 21st, 2021** is approved. Remediation activities were started on 1/11/2021. The site was excavated and backfilled, however after further review of laboratory data it was determined that two of the wall samples were above reclamation standards. Apache Corporation would like to request a 10 day extension so that they can address those areas prior to submitting the closure documentation.
