**Subject:** Characterization Plan Extension Request (nAPP2111046250)

Mr. Hamlet,

EOG Resources, Inc. respectfully requests an extension to October 14, 2021, for the Characterization Plan to the below listed incident. During the assessment activities at the subject site in May and June 2021, impacted areas larger than originally anticipated were encountered. Due to the current weather conditions access to the site is limited and the assessment sampling activities scheduled for the week of 06/28/2021 are being postponed until conditions allow for safe access to the location. The expectation of needing a core rig is also calculated into this request because our initial sampling indicates that we will need one to complete vertical delineation.
