Robert,

I talked to Mike Bratcher about this release. The initial was sent before the Waste Rule went into effect on 5/25/2021. The closure was sent on 7/9/2021, which is after that date. We will go ahead and close this one out. In the future, **all venting/flaring of gas with no liquids touching ground after 5/25/2021 needs to submit an electronic form C-129 to the payment portal. C-141s are no longer accepted for these types of releases.**

Thanks

Subject: FW: [EXTERNAL] The Oil Conservation Division (OCD) has rejected the application, Application ID: 35719

Good morning, Mr. Hamlet:

I have a question on this rejection. The original incident was reported on a C-141 (pre C-129) and I was assigned an incident number. Since the original incident was filed on a C-141, I filed for closure on a C-141. If I file a C-129, I will be assigned a new incident number. How do I tie the original C-141 reportable incident to the new C-129 form?

Thanks.

[Use caution with links/attachments]

To whom it may concern (c/o Robert Dunaway for Enterprise Field Services, LLC),

The OCD has rejected the submitted *Application for administrative approval of a release notification and corrective action* (C-141), for incident ID (n#) nAPP2110631326, for the following reasons:

- **This report is denied. In accordance with 19.15.27 and 19.15.28 of the Waste Rule, all venting/flaring of gas with no liquids touching ground after 5/25/2021 needs to submit an electronic form C-129 to the payment portal. C-141s are no longer accepted for these types of releases.**

The rejected C-141 can be found in the OCD Online: Permitting - Action Status, under the Application ID: 35719.

Please review and make the required correction(s) prior to resubmitting.

If you have any questions why this application was rejected or believe it was rejected in error, please contact me prior to submitting an additional C-141.

Thank you,

Robert Hamlet
