**Subject:** Jackson AT Battery (nAPP2115336154) Characterization/Remediation Plan Extension Request

Good afternoon,

Please find the Characterization/Remediation Plan Extension Request for the well listed.

Jackson AT Battery  
nAPP2115336154

EOG Resources, Inc. respectfully requests an extension to December 1, 2021, for the Characterization/Remediation Plan for the below listed location. The environmental consultant has determined that a core rig will be required to complete full delineation of the impacted area. After discussing current scheduling with the core rig company and the need for NMOSE permitting prior to

drilling, the consultant believes that December 1, 2021, is an attainable timeframe to complete the Characterization/Remediation Plan.

Thank you,

*Tina Huerta*

*Regulatory Specialist*
