Subject: [EXTERNAL] Scripps 4 (nRM2030860417) Remediation Extension Request

CAUTION: This email originated outside of our organization. Exercise caution prior to clicking on links or opening attachments.

Mr. Hamlet,

EOG Resources, Inc. respectfully requests an extension of 90 days to complete the remediation at the below listed location. Attached is a Summary of Recent Activities completed by GHD Services Inc., the environmental consultant guiding the remediation activities at the site. During the course of the excavation activities it became apparent that areas from 2 separate events being worked by 2 separate environmental consultants were connecting. Due to the historical nature of one of the events, EOG requested GHD to work with the other consultant to determine a path forward to insure that all impacts would be addressed appropriately. The collaboration between the consultant

companies will require lots of planning and documentation for total assurance that both plans encompass the identified area, and most likely discussions with NMOCD personnel before the work resumes, therefore the request is for an additional 90 days.
