All.

XTO is requesting an extension for the current 90-day deadline for submitting a remediation work

plan or closure report required in 19.15.29.12.B.(1) NMAC at the PLU 293 Flow Line (NAPP2126045826). The release was discovered on September 5, 2021 and initial site assessment was conducted. Excavation of impacted soil began November 3, 2021 and to date an estimated 350 cubic yards of soil have been removed. The most recent laboratory analytical results are pending. In order to review final laboratory analytical results, complete the remediation work, and submit a remediation work plan or closure report, XTO requests a 60-day extension of this deadline until February 2, 2022.

Thank you,

Melanie Collins
