RE: Incident #**NAPP2129846784**

**Zach,**

Your request for an extension to **April 14th, 2022** is approved.

**Subject:** RE: [EXTERNAL] nAPP2129846784 - Responsible Party

Thank you, Mr. Bratcher. I will continue working with NexGen to help them get an OGRID number.

Mr. Hamlet,

Are you able to grant a 90-day extension on this project? We were delayed due to the requirements to begin work set by the BLM (arch surveys, review process, etc) but remediation is currently underway. Please let me know if there is anything else needed.

Thanks,  
Zach

**Subject:** RE: [EXTERNAL] nAPP2129846784 - Responsible Party

Zach,

We cannot transfer (or open) incidents to an entity that does not have an OGRID number. We would prefer OGRID numbers go to producing operators only, but have seen the need, especially with water transfer companies, to issue OGRID's to non-operators. This is something that has been discussed internally some, but no official resolution at this point, and is an ongoing issue for us. I am including Rob Hamlet in this response so he can look at/process your extension request.

Let me know if you have questions.

Thanks,

CAUTION: This email originated outside of our organization. Exercise caution prior to clicking on links or opening attachments.

Good afternoon and Happy New Year,

We are currently working on the remediation for nAPP2129846784. After working through the BLM for proper approvals and the standard holiday delays, we are in the process of treatment.

Ascent Energy is listed as the "Responsible Party" on the website, but NexGen Water Solutions has accepted the actual responsible party, shown by submitting the C141. They are in the process of obtaining an OGRID number, but **are we able to transfer the title of official Responsible Party to them** now? Ascent Energy has requested we accelerate this process.

Also, are we able to get a **90 day extension** for this large project? We are projecting it to be finished in mid-February but the extension will give time for all laboratory turnarounds and any report processing times, and prevent the need for further extension requests.

Please let me know if you have any questions.

Thanks,

Zach
