13. Describe Proposed or Completed Operation (clearly state all pertinent details, including estimated starting date of any proposed work and approximate duration thereof. If the proposal is to deepen directionally or recompleat horizontally, give subsurface locations and measured and true vertical depths of all pertinent markers and zones. Attach the Bond under which the work will be performed or provide the Bond No. on file with BLM/BIA. Required subsequent reports shall be filed within 30 days following completion of the involved operations. If the operation results in a multiple completion or recompleat in a new interval, a Form 3160-4 shall be filed once testing has been completed. Final Abandonment Notices shall be filed only after all requirements, including reclamation, have been completed, and the operator has determined that the site is ready for final inspection.)

Request variance in offshore order to allow for storage inside of the tank battery fence of "usable" surplus equipment. This location is central to a significant amount of our operations and is 50 miles from other sources of available supplies and equipment. The use of the Jones D Federal tank battery for storage of surplus equipment greatly reduces downtime and costs associated with our operation.
