12. Describe proposed or completed operations. (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work). SEE RULE 1103. For Multiple Completions: Attach wellbore diagram of proposed completion or recompilation.

Merrion Oil & Gas requests an administrative exemption from the pit rule as per section 19.15.2.50 G. The subject well and pit are on state land. Therefore this sundry is also to serve as notice to the surface owner of record that the exemption is being proposed.

The pit is located in Section 32, T20S, R30E where unlined pits are allowed.

The pit is not in a wellhead protection zone. According the State Engineer's Office, there are water wells in the area, however, they are more than 200 feet from the unlined pit. (Please see the attached topo map)

The pit is not located in fresh water bearing alluvium. There are three water wells (see attached information from the State Engineer's Office) within about 1 mile of the pit, and the water levels range from 170' to 195' from surface in these wells.

I hereby certify that the information above is true and complete to the best of my knowledge and belief.
