13. Describe Proposed or Completed Operation (clearly state all pertinent details, including estimated starting date of any proposed work and approximate duration thereof. If the proposal is to deepen directionally or recompleat horizontally, give subsurface locations and measured and true vertical depths of all pertinent markers and zones. Attach the Bond under which the work will be performed or provide the Bond No. on file with BLM/BIA. Required subsequent reports shall be filed within 30 days following completion of the involved operations. If the operation results in a multiple completion or recompletion in a new interval, a Form 3160-4 shall be filed once testing has been completed. Final Abandonment Notices shall be filed only after all requirements, including reclamation, have been completed, and the operator has determined that the site is ready for final inspection.)

Marathon Oil Co. intends to drill a new horizontal lateral to the same permitted producing interval. Drilling operations will require construction of reserve pit. Marathon request constructing a 120' X 120' reserve pit at the site of the original approved reserve pit. No new disturbance area. Cuttings removed from original pit during construction will be stockpiled on a liner to prevent surface contamination. Pit will be padded to accept a 12 Mil liner. At the end of drilling operations pit area will be reclaimed as per BLM's requirements.

14. I hereby certify that the foregoing is true and correct.
