Subject: RE: Application for Authorization to Inject

Gerry. Sorry, I've been really busy up here. Will Jones says he received the application on April 25, 2002. He says it was a horrible application, and totally incomplete. He sent a letter to those guys on May 20, 2002 asking for more information. So far, nothing else has been submitted. So at this point, there isn't even an application pending. If you need anything else, call me.

David

Can you give me an update on C-108 for C E LaRue & B N Muncy (Leonard #7 30-015-02829). If approved would you send me a copy?

Thanx

36-16-29

Gerry
