13. Describe Proposed or Completed Operation (clearly state all pertinent details, including estimated starting date of any proposed work and approximate duration thereof. If the proposal is to deepen directionally or recompleat horizontally, give subsurface locations and measured and true vertical depths of all pertinent markers and zones. Attach the Bond under which the work will be performed or provide the Bond No. on file with BLM/BIA. Required subsequent reports shall be filed within 30 days following completion of the involved operations. If the operation results in a multiple completion or recompleat in a new interval, a Form 3160-4 shall be filed once testing has been completed. Final Abandonment Notices shall be filed only after all requirements, including reclamation, have been completed, and the operator has determined that the final site is ready for final inspection.)

The production from this well is piped from the wellhead to the production header at Station 117 Satellite Production Facility, located at UL "N", Section 17, T-21-S, R-24-E, Eddy County, NM.

No other changes will be made in the handling or transporting of any of the hydrocarbon production at this satellite facility. Attached please find an updated facility diagram but you don't need to replace Exhibit 6 of the original commingle agreement because this drawing is the same as the last one that was sent in to you. Copies of this diagram have been sent previously to the Carlsbad office as an update to the Site Security Diagrams required for this lease.

14. I hereby certify that the foregoing is true and correct
Name (Printed/Typed)

Ginny Larke
