Dear Mr. Arrant,

After having reviewed conditions in the area with Devon field personnel, there is no known H₂S expected to be encountered in this area during recompletion of the well to the Strawn. Therefore, the threshold requirement for meeting the need for a contingency plan pursuant to Rule 118 is not met.

If you need additional information, please feel free to contact me at 405 228-8209.

Sincerely,
