Operator,

The New Mexico Oil Conservation Division, District 2 office, is in receipt of initial Form C-141 submitted by your company regarding a release of 30 bbls oil on 8/23/2004 at the above referenced location. Please submit a Corrective Action work plan for remediation of this release using the "Guidelines For Remediation of Leaks, Spills, and Releases" as your guide.

A copy of these Guidelines can be found on the OCD website: www.emnrd.state.nm.us/oed. The document is located on the web page under Publications/Environmental Handbook/Miscellaneous Guidelines/Spill Prevention Clean-up.

The work plan submitted to OCD must include general site characteristics (Depth to Ground Water, Wellhead Protection Area, and Distance to nearest Surface Water Body), soil remediation action levels, soil remediation methods and planned analytical, which will require testing for TPH, B-Tex and chlorides.

A "Final Report" C-141 form is required for closure of remediation project and must include a report of remediation actions taken with final analytical results attached.

Please have the requested work plan in the Artesia District Office on or before October 13, 2004.

Please notify Artesia OCD Office 24 hours prior to any remediation actions or sampling events.

In the event a satisfactory response is not received to this letter, further enforcement actions may be taken.

If I can be of assistance in this matter please contact me at 505-748-1283 Ext 108

Cell: 505-626-0857

Or Email at mbratcher@state.nm.us

Thank you,

Mike Bratcher

Describe Area Affected and Cleanup Action Taken.*

See attached (B)

I hereby certify that the information given above is true and complete to the best of my knowledge and understand that pursuant to NMOCD rules and regulations all operators are required to report and/or file certain release notifications and perform corrective actions for releases which may endanger public health or the environment. The acceptance of a C-141 report by the NMOCD marked as "Final Report" does not relieve the operator of liability should their operations have failed to adequately investigate and remediate contamination that pose a threat to ground water, surface water, human health or the environment. In addition, NMOCD acceptance of a C-141 report does not relieve the operator of responsibility for compliance with any other federal, state, or local laws and/or regulations.
