13. Describe Proposed or Completed Operation (clearly state all pertinent details, including estimated starting date of any proposed work and approximate duration thereof. If the proposal is to deepen directionally or recompleat horizontally, give subsurface locations and measured and true vertical depths of all pertinent markers and zones. Attach the Bond under which the work will be performed or provide the Bond No. on file with BLM/BIA. Required subsequent reports shall be filed within 30 days following completion of the involved operations. If the operation results in a multiple completion or recompleat in a new interval, a Form 3160-4 shall be filed once testing has been completed. Final Abandonment Notices shall be filed only after all requirements, including reclamation, have been completed, and the operator has determined that the site is ready for final inspection.)

Marathon requests approval for the construction of a 100' X 100 x 4' lined workover pit. The pit will be constructed in the original reserve pit area and will not require any new surface disturbances. The pit will be constructed according to all BLM and New Mexico State requirements, including using a 12 mil liner. The top soil shall be stockpiled, all old pit materials will be placed on a liner and placed back in pit during closing operations. The free liquids shall be removed and any remaining materials will be buried and capped (20 mil liner) in place, with a minimum 3' of cover. The top soil shall then be put back in place, seeded and conditioned to promote vegetation.
