Dear Sir or Madam:

The Artesia District of the Oil Conservation Division received the C-103 forms attached. Please note the charts were not submitted. Verbal permission to inject was given on location to a Merit representative along with instructions on how to handle the paperwork. **This verbal permission is withdrawn and the wells must be shut in immediately.** The wells must stay shut in until the C-103's are re-submitted along with an original chart.

On the C-103 forms submitted, the pit guideline and general permit boxes were checked. I do not know why. Please inform the OCD of Merit's intent. Please be advised that Merit does not have a general permit.
