NATURE OF RELEASE

Type of Release	Producing Fluids	Volume of Release	TSTM	Volume Recovered
Source of Release	Production Casing	Date and Hour of Occurrence		Date and Hour of Discovery
Was Immediate Notice Given?	<input type="checkbox"/> Yes <input type="checkbox"/> No <input checked="" type="checkbox"/> Not Required	If YES, To Whom?		
By Whom?		Date and Hour		
Was a Watercourse Reached?	<input type="checkbox"/> Yes <input checked="" type="checkbox"/> No	If YES, Volume Impacting the Watercourse.		

If a Watercourse was Impacted, Describe Fully.*

Describe Cause of Problem and Remedial Action Taken.*

4 1/2 Production Casing: The soil around well head was dug out to approx. 3'. A small hole was in the 4 1/2 csg. directly below the well head. A 4 1/2 csg. repair clamp was installed and the leak was repaired.

Describe Area Affected and Cleanup Action Taken.*

The contaminated soil around well head was picked up and taken to a land farm. Clean soil was replaced around well head.

I hereby certify that the information given above is true and complete to the best of my knowledge and understand that pursuant to NMOCD rules and regulations all operators are required to report and/or file certain release notifications and perform corrective actions for releases which may endanger public health or the environment. The acceptance of a C-141 report by the NMOCD marked as "Final Report" does not relieve the operator of liability should their operations have failed to adequately investigate and remediate contamination that pose a threat to ground water, surface water, human health or the environment. In addition, NMOCD acceptance of a C-141 report does not relieve the operator of responsibility for compliance with any other federal, state, or local laws and/or regulations.
