Devon Energy Production Company L.P. plans to close the pre April 15, 2004 drilling pit at the Todd 15 C Federal #3. We plan to breakout the pit and mix with surrounding material and cover with 20 mil plastic, then cover with 3' of clean native soil or like material capable of supporting native plant growth. We will contour the pit area to prevent erosion and ponding of rainwater over the site as per Rule 50 of the Pit and Below-Grade Tank Guidelines.

I hereby certify that the information above is true and complete to the best of my knowledge and belief. I further certify that any pit or below-grade tank has been/will be constructed or closed according to NMOCD guidelines ☒, a general permit ☐ or an (attached) alternative OCD-approved plan ☐.
