If a Watercourse was Impacted, Describe Fully.* Not Applicable

Describe Cause of Problem and Remedial Action Taken.*

The release area was discovered by a BOPCO Lead Pumper. It appeared that the sight glass had been broken and repaired.

Describe Area Affected and Cleanup Action Taken.* The spill impacted approximately 900 sq. ft. of tank battery pad. The release also misted approximately 4,500 sq. ft. of pasture area that had been cleared of vegetation during the tank battery pad construction. The spill area has been cleaned up in conjunction to another reportable spill at this location. The contaminated soil has been removed and hauled to state approved facility for disposal, and the excavation backfilled with clean soil. The pasture area has been blended with clean soil in the immediate vicinity in accordance to the NMOCD and BLM remediation guidelines.

I hereby certify that the information given above is true and complete to the best of my knowledge and understand that pursuant to NMOCD rules and regulations all operators are required to report and/or file certain release notifications and perform corrective actions for releases which may endanger public health or the environment. The acceptance of a C-141 report by the NMOCD marked as "Final Report" does not relieve the operator of liability should their operations have failed to adequately investigate and remediate contamination that pose a threat to ground water, surface water, human health or the environment. In addition, NMOCD acceptance of a C-141 report does not relieve the operator of responsibility for compliance with any other federal, state, or local laws and/or regulations.
