|--|---|---|------------|----------------------------|---------|
| Type of Release  | Oil   | Volume of Release                         | 90 bbls    | Volume Recovered           | 80 bbls |
| Source of Release  | Kimray dump valve failed on 3 phase separator causing tanks to spill over                                 | Date and Hour of Occurrence               | 12/21/2013 | Date and Hour of Discovery |         |
| Was Immediate Notice Given?  | <input type="checkbox"/> Yes <input checked="" type="checkbox"/> No <input type="checkbox"/> Not Required | If YES, To Whom?                          |            |                            |         |
| By Whom?   |   | Date and Hour                             |            |                            |         |
| Was a Watercourse Reached?   | <input type="checkbox"/> Yes <input checked="" type="checkbox"/> No                                       | If YES, Volume Impacting the Watercourse. |            |                            |         |
| If a Watercourse was Impacted, Describe Fully.*  |   |   |            |                            |         |
| Describe Cause of Problem and Remedial Action Taken.*  |   |   |            |                            |         |
| The failure of a Kimray dump valve on a 3 phase separator caused the tanks to spill 90 bbls of oil onto the ground. 80 bbls of oil were recovered via vacuum truck and the valve was repaired or replaced.   |   |   |            |                            |         |
| Describe Area Affected and Cleanup Action Taken.*  |   |   |            |                            |         |
| The affected area is approximately 30' x 90' on location. Remediation was completed in accordance with the remediation plan approved by Mike Bratcher of the NMOCD on 04/01/2014 and approved by Jennifer Van Curen of the BLM via email on 4/22/2014. |   |   |            |                            |         |

I hereby certify that the information given above is true and complete to the best of my knowledge and understand that pursuant to NMOCD rules and regulations all operators are required to report and/or file certain release notifications and perform corrective actions for releases which may endanger public health or the environment. The acceptance of a C-141 report by the NMOCD marked as "Final Report" does not relieve the operator of liability should their operations have failed to adequately investigate and remediate contamination that pose a threat to ground water, surface water, human health or the environment. In addition, NMOCD acceptance of a C-141 report does not relieve the operator of responsibility for compliance with any other federal, state, or local laws and/or regulations.
