If a Watercourse was Impacted, Describe Fully.*:

Describe Cause of Problem and Remedial Action Taken.*: Pulled up to water station doing my daily routine, triplex pump had water shooting up inside waterstation. Plunger on triplex Pump broke completely off, causing water to shoot out, swamp pump inside water station sucked all water and pumped into fiberglass swamp tank, causing it to overflow and spill over.

Describe Area Affected and Cleanup Action Taken.* : Area affected was 66ft ong X 51 ft Wide, all inside the dike. Water truck was used on leak site and picked 60barrels/BSG roustabout gang helped pick up water.

I hereby certify that the information given above is true and complete to the best of my knowledge and understand that pursuant to NMOCD rules and regulations all operators are required to report and/or file certain release notifications and perform corrective actions for releases which may endanger public health or the environment. The acceptance of a C-141 report by the NMOCD marked as "Final Report" does not relieve the operator of liability should their operations have failed to adequately investigate and remediate contamination that pose a threat to ground water, surface water, human health or the environment. In addition, NMOCD acceptance of a C-141 report does not relieve the operator of responsibility for compliance with any other federal, state, or local laws and/or regulations.
