NATURE OF RELEASE

Type of Release: crude oil	Volume of Release: 105 bbls crude oil	Volume Recovered: 85 bbls
Source of Release: flare stack	Date and Hour of Occurrence: 11/18/14 @ unknown	Date and Hour of Discovery: 11/18/14 @ approx. 9:00 am
Was Immediate Notice Given? <input checked="" type="checkbox"/> Yes <input type="checkbox"/> No <input type="checkbox"/> Not Required	If YES, To Whom? M. Bratcher in person during meeting	
By Whom? Tony Savoie	Date and Hour: 11/18/14 @ 1:45 pm	
Was a Watercourse Reached? <input type="checkbox"/> Yes <input checked="" type="checkbox"/> No	If YES, Volume Impacting the Watercourse: Not Applicable	

If a Watercourse was Impacted, Describe Fully.* Not Applicable

Describe Cause of Problem and Remedial Action Taken.*

The circulation piping was tied into this system causing the vessels to overpressure and release to the flare stack. The piping was changed to eliminate pressure relief to the flare stack.

Describe Area Affected and Cleanup Action Taken.* The spill impacted approximately 1,204 sq. ft. of bermed area around the flare stack, approximately 1,694 sq. ft. of well pad where the fluid had puddled up on and approximately 7,300 sq. ft. of pad-pasture area was misted. All of the free standing fluid was recovered; the stained area was left as is pending remediation. A portion of the spill area is on top of the spill on 11/16/14 reference 2RP-2613. The release area was remediated in conjunction with two other releases; 2RP-2613 and 2RP-2781. A portion of contaminated soil was excavated and hauled to a state approved disposal facility with remaining contaminated soil remediated on site. Based on laboratory analytical data and NMOCD approval the excavation has been backfilled with remediated soil. The area has been remediated in accordance to the NMOCD and BLM guidelines for spill remediation.

I hereby certify that the information given above is true and complete to the best of my knowledge and understand that pursuant to NMOCD rules and regulations all operators are required to report and/or file certain release notifications and perform corrective actions for releases which may endanger public health or the environment. The acceptance of a C-141 report by the NMOCD marked as "Final Report" does not relieve the operator of liability should their operations have failed to adequately investigate and remediate contamination that pose a threat to ground water, surface water, human health or the environment. In addition, NMOCD acceptance of a C-141 report does not relieve the operator of responsibility for compliance with any other federal, state, or local laws and/or regulations.
