### NATURE OF RELEASE

Type of Release: Oil and Produced Water	Volume of Release: 5 bbls of Oil ; 5 bbls of PW	Volume Recovered: 4 bbls of Oil ; 4 bbls of PW
Source of Release: Stuffing Box Leak	Date and Hour of Occurrence: 10/21/2016 unknown	Date and Hour of Discovery: 10/21/2016 8:00 AM
Was Immediate Notice Given? <input type="checkbox"/> Yes <input type="checkbox"/> No <input checked="" type="checkbox"/> Not Required	If YES, To Whom?	
By Whom?	Date and Hour:	
Was a Watercourse Reached? <input type="checkbox"/> Yes <input checked="" type="checkbox"/> No	If YES, Volume Impacting the Watercourse.	

If a Watercourse was Impacted, Describe Fully.\*

Describe Cause of Problem and Remedial Action Taken.\*

The release was caused by a failed packing in the stuffing box. The packing was removed and a new packing installed. Vacuum trucks were immediately dispatched to recover all standing fluid from the well pad. The impacted area of the well pad was lightly scraped to remove the surface impact and the impacted soil was hauled off.

Describe Area Affected and Cleanup Action Taken.\*

This release occurred on the well pad location surrounding the well. There was no impact to the pasture. Concho had the spill site sampled to delineate any possible impact from the release and presented a remediation work plan to the NMOCD and BLM for approval prior to any significant remediation work. All work has been completed according to the workplan approved by the NMOCD and BLM on April 18, 2017 and April 3, 2017 respectively.

I hereby certify that the information given above is true and complete to the best of my knowledge and understand that pursuant to NMOCD rules and regulations all operators are required to report and/or file certain release notifications and perform corrective actions for releases which may endanger public health or the environment. The acceptance of a C-141 report by the NMOCD marked as "Final Report" does not relieve the operator of liability should their operations have failed to adequately investigate and remediate contamination that pose a threat to ground water, surface water, human health or the environment. In addition, NMOCD acceptance of a C-141 report does not relieve the operator of responsibility for compliance with any other federal, state, or local laws and/or regulations.
