13. Describe Proposed or Completed Operation: Clearly state all pertinent details, including estimated starting date of any proposed work and approximate duration thereof. If the proposal is to deepen directionally or recompleat horizontally, give subsurface locations and measured and true vertical depths of all pertinent markers and zones. Attach the Bond under which the work will be performed or provide the Bond No. on file with BLM/BIA. Required subsequent reports must be filed within 30 days following completion of the involved operations. If the operation results in a multiple completion or recompleat in a new interval, a Form 3160-4 must be filed once testing has been completed. Final Abandonment Notices must be filed only after all requirements, including reclamation, have been completed and the operator has determined that the site is ready for final inspection.

See attachments for application for off lease gas measurement

Bond on file: NM1693 nationwide & NMB000919

14. I hereby certify that the foregoing is true and correct.

Proposal for Lindale 24/25 W1AH Fed 1H & Lindale 24/25 W1AH Fed 2H:

Mewbourne Oil Company is requesting approval for the Off --Lease Gas Measurement:

Federal Lease NMNM-018626 & NMNM-133076

Well Name	Location	API #	Pool 98220	BOPD	Gravities
Lindale 24/25 W1AH Federal 1H	Sec. 24-T26S-R30E	30-015-44713	Purple Sage; Wolfcamp	260	56
MCFPD	Dry BTU	Wet BTU			
2,000	1292	1269			

Federal Lease NMNM-018626 & NMNM-133076

Well Name	Location	API #	Pool 98220		
Lindale 24/25 W1AH Federal 2H	Sec. 24-T26S-R30E	30-015-44714	Purple Sage; Wolf camp		
BOPD	Oil Gravities	MCFPD	Dry BTU	Wet BTU	
240	56	2,400	1292	1269	

Attached maps show the federal leases and well locations in Section 24-T26S-R30E and Section 8- T26S-R31E. Working, royalty, and overriding interest owners have been notified of this proposal via certified mail (see attached).

Oil & Gas metering:

The Lindale 24/25 W1AH Fed 1H and Lindale 24/25 W1AH Fed 2H has a tank battery that both wells will utilize, and they have a common CDP (**Enterprise #6891201**) which is located north east of the tank battery in section 8, T26S-R31E in Eddy County NM. Coordinates for the FMP are 32.0547106, -103.8012562. Oil and water volumes from each well will be determined by using their own separation equipment and heater treaters. Gas volumes from each well will be determined by using gas allocation meters (1H #62733-000 2H #62807-000). Gas will then be commingled and sold off lease to Enterprise #6891201 on NMNM-133076. Both MOC test meters and DCP master meter will be calibrated on a regular basis per API, NMOCD, & BLM specifications.

Process and Flow Descriptions:

The flow of production is shown in detail on enclosed facility diagram and map which shows the lease boundaries, location of wells, facility, and gas sales meter. The commingling of this production is the most effective economical means of producing the reserves and will not result in reduced royalty or improper measurement of production. The proposed commingling will reduce operating expenses as well as reduce the surface facility footprint and overall emissions.

Mewbourne Oil Company understands the requested approval will not constitute the granting of any right-of-way or construction rights not granted by the lease instrument.

Working, royalty, and overriding interest owners have been notified of this proposal via certified mail (see attached).

**Bureau of Land Management
Carlsbad Field Office
620 East Greene Street
Carlsbad, New Mexico 88220
575-234-5972**

**Conditions of Approval
Off-Lease Measurement of Gas
Mewbourne Oil Company
Lindale 24/25 W1AH Federal 1H and 2H**

Approval for off-lease operations is subject to the following conditions:

1. This approval is subject to like approval by the New Mexico Oil Conservation Division.
2. This agency shall be notified of any change in sales method or location of the Sales point.
3. This agency shall be notified of any spill or discharge as required by NTL-3A.
4. This agency reserves the right to modify or rescind approval whenever it determines continued use of the approved method may adversely affect the public's interest (surface and/or subsurface).
5. If new surface disturbance on BLM-managed land is proposed, the operator shall submit appropriate surface use plan of operations and right-of-way grant applications to the Carlsbad Field Office for approval prior to any construction.
6. All oil and gas subject to royalty shall be measured and reported to ONRR as required, unless otherwise approved by an Authorized Officer. Aside from exceptions listed in 43 CFR 3179, all flared/vented gas volumes are royalty bearing and shall be reported on OGOR "B" as disposition code "33" for royalty-bearing flared gas and disposition code 63 for royalty-bearing vented gas.
7. Additional wells require a new and updated application for off-lease operations.
8. This approval does not authorize bypasses around any approved measurement point, nor does it approve the use of headers capable of acting as a bypass.
9. The operator shall allow properly identified authorized DOI representatives to enter any facility on non-federal surface in order inspect equipment and meters which could affect the allocation of production originating from the wells in this package.
10. Approval for off-lease operations is a privilege which is granted to lessees for the purpose of aiding conservation and extending the economic life of leases. Applicants should be cognizant that failure to operate in accordance with the provisions outlined in the Authorized Officer's conditions of approval and/or subsequent stipulations or modifications will subject such approval to revocations.
