13. Describe Proposed or Completed Operation: Clearly state all pertinent details, including estimated starting date of any proposed work and approximate duration thereof. If the proposal is to deepen directionally or recompleat horizontally, give subsurface locations and measured and true vertical depths of all pertinent markers and zones. Attach the Bond under which the work will be performed or provide the Bond No. on file with BLM/BIA. Required subsequent reports must be filed within 30 days following completion of the involved operations. If the operation results in a multiple completion or recompleat in a new interval, a Form 3160-4 must be filed once testing has been completed. Final Abandonment Notices must be filed only after all requirements, including reclamation, have been completed and the operator has determined that the site is ready for final inspection.

Tap Rock Operating LLC is requesting permission to flare the following wells:

Cypress 34 Federal 242H  
Cypress 34 Federal 212H  
Cypress 34 Federal 207H

Tap Rock is requesting this flaring due to pipeline constraint by our Midstream company Salt Creek (SCM). Tap Rock is expecting 15-20 mmcf/d of gas per facility in which we are requesting to flare. Tap Rock is currently working with other gas take away companies as well as Salt Creek to limit the total amount of gas that would be flared. Tap Rock is requesting the full six-month flare permit and will update BLM via sundry if the timing changes.

14. I hereby certify that the foregoing is true and correct.
