NATURE OF RELEASE

Type of Release: Produced water	Volume of Release 200 bbls	Volume Recovered 100 bbls
Source of Release: Ruptured Victaulic connection	Date and Hour of Occurrence 2/20/2011	Date and Hour of Discovery 2/20/2011 9:00 a.m.
Was Immediate Notice Given? <input checked="" type="checkbox"/> Yes <input type="checkbox"/> No <input type="checkbox"/> Not Required	If YES, To Whom? Mike Bratcher - OCD	
By Whom? Josh Russo	Date and Hour 2/20/11 3:43pm	
Was a Watercourse Reached? <input type="checkbox"/> Yes <input checked="" type="checkbox"/> No	If YES, Volume Impacting the Watercourse.	

If a Watercourse was Impacted, Describe Fully.\*

N/A

Describe Cause of Problem and Remedial Action Taken.\*

A Victaulic connection ruptured causing the release. The line was re-routed and returned to service.

Describe Area Affected and Cleanup Action Taken.\*

Tetra Tech inspected site and collected soil samples to define spills extent. A work plan was submitted for approval. Once approved, the impacted soils, above the RRAL, were excavated and hauled for proper disposal. Based on the remedial activities performed, the excavation was backfilled with clean backfill material. Tetra Tech prepared closure report and submitted to NMOCD.

I hereby certify that the information given above is true and complete to the best of my knowledge and understand that pursuant to NMOCD rules and regulations all operators are required to report and/or file certain release notifications and perform corrective actions for releases which may endanger public health or the environment. The acceptance of a C-141 report by the NMOCD marked as "Final Report" does not relieve the operator of liability should their operations have failed to adequately investigate and remediate contamination that pose a threat to ground water, surface water, human health or the environment. In addition, NMOCD acceptance of a C-141 report does not relieve the operator of responsibility for compliance with any other federal, state, or local laws and/or regulations.
