13. Describe Proposed or Completed Operation (clearly state all pertinent details, including estimated starting date of any proposed work and approximate duration thereof. If the proposal is to deepen directionally or recompleat horizontally, give subsurface locations and measured and true vertical depths of all pertinent markers and zones. Attach the Bond under which the work will be performed or provide the Bond No. on file with BLM/BIA. Required subsequent reports shall be filed within 30 days following completion of the involved operations. If the operation results in a multiple completion or recompleat in a new interval, a Form 3160-4 shall be filed once testing has been completed. Final Abandonment Notices shall be filed only after all requirements, including reclamation, have been completed, and the operator has determined that the site is ready for final inspection.)

COG Operating LLC respectfully requests to repair a casing leak. This is a new drill and we have a crew onsite waiting on approval.

There is a leak in the 5.5" 17 lb/ft J-55 casing at 1300'. We will set a composite bridge plug at 1350' and composite cement retainer at 1200', then pump 230 sx of class C with 2% CaCl<sub>2</sub> which should circulate. We will let it set for 24 hrs then drill out and test to 1500 psi.

Accepted for record
