Describe Cause of Problem and Remedial Action Taken.*					
A faulty 1/4" plug at the H pump caused the release. The plug has been replaced.					
Describe Area Affected and Cleanup Action Taken.*					
Initially 40bbls were released from the faulty plug. We were able to recover 39bbls of fluid with a vacuum truck. This facility is lined with a 40 mil plastic liner. The facility has been returned to its prior condition.					
I hereby certify that the information given above is true and complete to the best of my knowledge and understand that pursuant to NMOCD rules and regulations all operators are required to report and/or file certain release notifications and perform corrective actions for releases which may endanger public health or the environment. The acceptance of a C-141 report by the NMOCD marked as "Final Report" does not relieve the operator of liability should their operations have failed to adequately investigate and remediate contamination that pose a threat to ground water, surface water, human health or the environment. In addition, NMOCD acceptance of a C-141 report does not relieve the operator of responsibility for compliance with any other federal, state, or local laws and/or regulations.
