13. Describe Proposed or Completed Operation. Clearly state all pertinent details, including estimated starting date of any proposed work and approximate duration thereof. If the proposal is to deepen directionally or recomple horizontally, give subsurface locations and measured and true vertical depths of all pertinent markers and zones. Attach the Bond under which the work will be performed or provide the Bond No. on file with BLM/BIA. Required subsequent reports must be filed within 30 days following completion of the involved operations. If the operation results in a multiple completion or recomple in a new interval, a Form 3160-4 must be filed once testing has been completed. Final Abandonment Notices must be filed only after all requirements, including reclamation, have been completed and the operator has determined that the site is ready for final inspection.)

Per Notice of Orders from the BLM (Order No. 12JR25W), all of the applicable Corrective Actions have been completed except for Seeding. The cellar boards were removed, back-filled, and leveled to match existing contours. Site and road was ripped, and the pad was recontoured to match surrounding terrain. It is my understanding that Beth Skaggs, Natural Resource Specialist (BLM's Roswell Office), has been on location and inspected the completed work.

At this time, Scythian, Ltd., respectfully requests an extension for Seeding up until September 15, 2012. At which time seeding has been completed, we will file a Final Abandonment Notice.
