13 Describe Proposed or Completed Operation (clearly state all pertinent details, including estimated starting date of any proposed work and approximate duration thereof. If the proposal is to deepen directionally or recompleat horizontally, give subsurface locations and measured and true vertical depths of all pertinent markers and zones. Attach the Bond under which the work will be performed or provide the Bond No on file with BLM/BIA. Required subsequent reports shall be filed within 30 days following completion of the involved operations. If the operation results in a multiple completion or recompleat in a new interval, a Form 3160-4 shall be filed once testing has been completed. Final Abandonment Notices shall be filed only after all requirements, including reclamation, have been completed, and the operator has determined that the site is ready for final inspection.)

COG would like to make a clarification to the Sundry submitted 4/4/2012 (electronic submission #134571) concerning the casing from surface to TD, which gives the wrong impression that 5 1/2 inch casing will run from TD to surface. COG will be reverting back to the original APD drilling plan of running a tapered string of 7 x 5 1/2 inch casing from TD to surface

Accepted for record
