- 13 Describe Proposed or Completed Operation (clearly state all pertinent details, including estimated starting date of any proposed work and approximate duration thereof. If the proposal is to deepen directionally or recompleat horizontally, give subsurface locations and measured and true vertical depths of all pertinent markers and zones. Attach the Bond under which the work will be performed or provide the Bond No on file with BLM/BIA. Required subsequent reports shall be filed within 30 days following completion of the involved operations. If the operation results in a multiple completion or recompleat in a new interval, a Form 3160-4 shall be filed once testing has been completed. Final Abandonment Notices shall be filed only after all requirements, including reclamation, have been completed, and the operator has determined that the site is ready for final inspection.)

BOPCO L.P. respectfully requests to make the following changes listed below for the above captioned well:

Change the 4-1/2" liner to a 4-1/2" Baker Hughes completion system utilizing hydraulic set packers for zone isolation. The top of the completion system will be set with a Baker B3 packer, 50' (7,865' MD) into the 7" 26 ppf, N-80, LT&C casing shoe which will be set at 7,915' MD. The 7" casing will be cemented 500' into the 9-5/8" intermediate casing. The liner packer will be isolating the 4-1/2" casing and 21 Baker open hole packers.

Casing Specs:

7" 26 ppf, N-80, LT&C set at 7,915' MD (7,729' TVD)

4-1/2" 11.6 ppf, HCP-110, LT&C set at 15,078' MD (7,906' TVD)

Based on data from offset logs on the PLU 341H and PLU 342H, BOPCO, L.P. is requesting approval to deepen surface casing. Based on interpretation, our geology department believes the top of the Rustler will come in at 826' MD and the Salado will come in at 996' MD. I am requesting approval to set 13-3/8", 54.5#, J-55, STC casing to a depth of 986' MD or a minimum of 25' into the Rustler. Cement will be circulated to surface as per COA.

Original COA Still Applies

14. I hereby certify that the foregoing is true and correct
