| Type of Release SPILL | Volume of Release 20bbls of Oil | Volume Recovered 10bbls of Oil |
| Source of Release Tank Overflow | Date and Hour of Occurrence 08/22/12, 7:30am | Date and Hour of Discovery 08/22/12, 7:30am |
| Was Immediate Notice Given? <input checked="" type="checkbox"/> Yes <input type="checkbox"/> No <input type="checkbox"/> Not Required | If YES, To Whom? OCD - Mike Bratcher | |
| By Whom? Daniel Suniga | Date and Hour 08/22/12, 8:45am | |
| Was a Watercourse Reached? <input type="checkbox"/> Yes <input checked="" type="checkbox"/> No | If YES, Volume Impacting the Watercourse. | |

If a Watercourse was Impacted, Describe Fully.*
N/A

Describe Cause of Problem and Remedial Action Taken.*
At the Snapping 2 State 4H battery, a miscommunication between two well watchmen led to the overflow of a frac tank, resulting in an oil spill of 20bbls.

Describe Area Affected and Cleanup Action Taken.*
The day well watcher noticed that the well had loaded up and was not producing. He switched all of the production from the equipment to a frac tank in order to release pressure, so the well would began producing. Upon completion of his shift that evening, he notified the night well watcher of the changes. The night well watcher did not understand the instructions received and continued to monitor the production tanks. He was under the impression that his levels in the production tanks at the battery were fine, so he went to sleep. The night watchman woke up in the morning to discover that the frac tank was overflowing. The overflow result in a spill of 15bbls of oil on the location and 5bbls of oil in the pasture off the side of location. A vacuum truck was able to recover 10bbls and return the oil to the oil tank. The Devon PIC has made arrangements to remove the oily dirt and replace it.

I hereby certify that the information given above is true and complete to the best of my knowledge and understand that pursuant to NMOCD rules and regulations all operators are required to report and/or file certain release notifications and perform corrective actions for releases which may endanger public health or the environment. The acceptance of a C-141 report by the NMOCD marked as "Final Report" does not relieve the operator of liability should their operations have failed to adequately investigate and remediate contamination that pose a threat to ground water, surface water, human health or the environment. In addition, NMOCD acceptance of a C-141 report does not relieve the operator of responsibility for compliance with any other federal, state, or local laws and/or regulations.
