13. Describe Proposed or Completed Operation. Clearly state all pertinent details, including estimated starting date of any proposed work and approximate duration thereof. If the proposal is to deepen directionally or recompleat horizontally, give subsurface locations and measured and true vertical depths of all pertinent markers and zones. Attach the Bond under which the work will be performed or provide the Bond No. on file with BLM/BIA. Required subsequent reports must be filed within 30 days following completion of the involved operations. If the operation results in a multiple completion or recompleat in a new interval, a Form 3160-4 must be filed once testing has been completed. Final Abandonment Notices must be filed only after all requirements, including reclamation, have been completed and the operator has determined that the site is ready for final inspection.)

- Devon Energy contracted Talon/LPE to complete reclamation services on the closed drilling pit at the Shugart 25 Federal Com No. 2, an active well location.
- The location at the Shugart 25 Federal Com No. 2 was downsized. New soil was transported from a local borrow pit and placed on the drilling pit area.
- A minimum of 1-foot of caliche and 3-feet of sandy loam were placed over the closed drilling pit area. The soil lift were contoured to match the surrounding terrain.
- The downsized section of the location was then cut, ripped and windrows were constructed. A 1-foot berm was constructed up gradient of the drilling pit to divert run off waters for erosion control. The recontoured soil lift and the downsized section of the location was seeded using BLM seed mix #2 on 10/11/2012.
